

# TAKE A LOOK!

## KBA-1510FP

*from OCM, Inc. Chicago, IL*

Are you looking for a **safe cost effective waterstop** to use in:

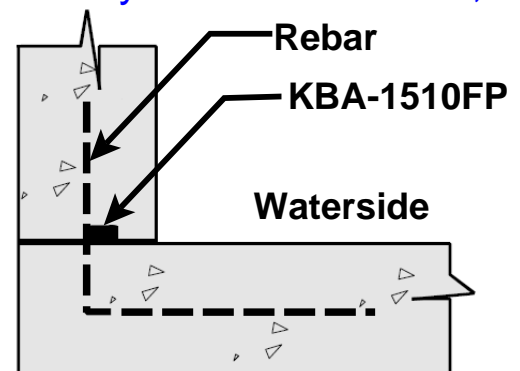

- \* concrete joints
- \* containment curbs
- \* piping penetrations
- \* residential construction
- \* precast structures including manholes

It is here and available now - **Adeka Ultra Seal KBA-1510FP**

KBA-1510FP - the best expanding foamed rubber waterstop you can use. This waterstop was invented and produced by Adeka Ultra Seal, the leader in hydrophilic waterstops.

KBA-1510FP waterstop is designed for:

- \* EASY installation
- \* non-moving joints
- \* hydrostatic head of 25 feet or less
- \* 4 inch or greater concrete walls and slabs
- \* placement on water side of rebar for extra protection
- \* areas of minimal concrete coverage (requires just 1 inch)

**Don't worry about leaks or blown out concrete!**

Call 3-D Sales, Inc. for the complete story about the new  
KBA-1510FP strip type waterstop.
